Subject: Hurricane Harvey - update (NO REQUESTS FOR ASSISTANCE AT THIS POINT)

Thu Aug 24, 2017 NDOW 3:00pm Conf Call with all members (Andy attended in person, Mark via phone). This call is scheduled each day at 3pm for now.

TCEQ Region office in Corpus is closed, all its phones have been transferred to the Lubbock (or Amarillo?) office. Texas A&M Corpus campus closed as of noon today.

Teams (state, USCG) being assembled and assets in area moved to higher ground. Texas has ordered the Civil Strike Team for assistance. Likely deployment of state personnel is targeted for Tuesday but is a moving target. Initial staging area is at the Robstown fairgrounds for now. Aspect (flyover capability post-storm) has been placed on standby.

6EN sent two OSCs down today to provide RM support and training. RM has all our data loaded and ready to go. Two START contractors will be down there as well. 6EN (John Martin) started the process with Kendra for initial assembly of a HASP. * THERE IS NO REQUEST FOR STAFF/VOLUNTEERS at this point *****

All the NDOW work over the past years is really paying off. There was actually a Cat 3 hurricane drill conducted in Corpus by NDOW in 2012 and this is unfolding similar to that. Nic Brescia is providing that IAP to help kick start that part of the response.
